*Multi-Year Giving

Taos Society of Patrons members make our exceptional educational programming and sustainability possible. Our organization expresses deep gratitude to our distinguished donors for their large, reliable contributions over time that support exhibitions, curatorial projects, historic preservation and conservation, public programs, research fellows, and making our extraordinary archives accessible.

With recognition in the Taos Society of Patrons, you are among a distinguished group who provide critical support to Couse-Sharp Historic Site. Each circle of the Society recognizes key supporters who commit to a series of significant annual unrestricted gifts. The Taos Society of Artists required its members to spend consecutive summers in Taos; similarly, we ask you consider a multi-year commitment to sustained giving.
